### Nearly 300 U.S. Exporters Urgently Seek Ocean Transport Intervention

Nearly 300 US agriculture and forest products companies and associations have delivered a [letter to Secretary of DOT Pete Buttigieg](#), urging immediate intervention to protect US exporters, and their access to foreign markets.

We are hopeful the Secretary will act upon it soon, as the situation is becoming increasingly dire. We have specific measures we can propose, and request the opportunity to present them.
