

DAT Solutions Announces Executive Appointments

May 27, 2020

DAT Names Nadya Duke Boone Vice President, Product

Nadya Duke Boone is DAT's Vice President, Product, and reports to CEO and President Claude Pumilia. Nadya is responsible for product management, data science, delivery, and support across the entire range of DAT products and services, including the company's load board network and freight data and analytics business.

Prior to DAT, Nadya was a product leader at New Relic, a developer of cloud-based software that helps website and application owners track the performance of their services. She developed New Relic's first artificial intelligence products and branding, led product for the development and launch of the New Relic One platform, and was general manager of its flagship product, APM. Nadya's previous roles include working as an IT director for a Fortune 1000 company, the first engineering leader at a startup acquired by Boeing, and product manager for multiple SaaS product launches.

Nadya has a Bachelor of Science degree in electrical engineering from San Diego State University.

DAT Names Greg Hastings Vice President, Strategy Execution

Greg Hastings is DAT's Vice President, Strategy Execution. Reporting to CEO and President Claude Pumilia, Greg is responsible for the development and execution

of DAT's strategic and business planning processes. Greg also leads the company's partnering initiatives and mergers and acquisitions.

Greg was a core leader in the Transport & Logistics practice at McKinsey & Co., where he helped clients assess merger and acquisition opportunities, design and launch digital business models, improve operational efficiencies, and navigate disruptive trends and their implications on the supply chain.

Prior to joining McKinsey, Greg spent more than 11 years in the U.S. Army as an infantry officer commanding Ranger and Airborne units.

He holds an MBA from Stanford University Graduate School of Business and a Bachelor of Science degree in Psychology from the United States Military Academy at West Point.

DAT Names Dean Croke Principal Industry Analyst

Dean Croke is DAT's principal industry analyst, bringing 35 years of experience in the fields of data science, supply chain management, risk management, and human performance.

Prior to joining DAT, Dean was one of the founders at FleetRisk Advisors (purchased by Qualcomm and now called now Omnitracs Analytics), which pioneered the development of reporting and data analytics tools for fleet managers. Dean has held senior leadership roles at FreightWaves, Lancer Insurance, and Spireon, where he helped create telematics products for customers in trucking, automotive, and insurance markets.

Originally from a family-owned trucking business in Australia, Dean is a CDL holder and an active owner-operator. He owns a 379 Peterbilt show truck known as "The Grumpy Pete."

About DAT Solutions

DAT operates the largest truckload freight marketplace in North America. Transportation brokers, motor carriers, news organizations and industry analysts rely on DAT for market trends and data insights derived from 183 million freight matches and a database of \$68 billion in annual market transactions. As the industry standard in truckload pricing, DAT's freight rate database also provides the settlement prices against which trucking freight futures contracts are traded.

Founded in 1978, DAT Solutions LLC is a wholly owned subsidiary of Roper Technologies (NYSE:ROP), a diversified technology company and constituent of the S&P 500, Fortune 1000, and Russell 1000 indices. [DAT.com](https://www.dat.com)
